

INVITATION FOR MWC 2024

Open RAN beyond the box: Join us for exploring more

DENGYO Technology is transforming the telecom landscape with innovative hardware solutions but not limited to it. DGT continuously empowers open, adaptable, and cost-effective 5G networks. We believe in fostering collaboration and driving the Open RAN ecosystem forward.

DGT values:

- True Openness:** DGT is offering interoperable solutions that integrate seamlessly with diverse vendor ecosystems. This flexibility empowers you to build and customize your network freely, avoiding vendor lock-in.
- Unmatched Value:** We're aggressively competitive in terms of pricing, delivery, and pre/post-sales support. We are committed to offering the best value proposition in the market.
- Industry Leadership:** We're actively involved in shaping the Open RAN ecosystem, collaborating with leading players to advance and standardize open network technologies.

Discover DGT :

- OPEN RAN Radio:** Experience the power of flexibility and cost-effectiveness with our cutting-edge Open RAN radio solutions.
- Distributed Indoor Network:** Optimize coverage and capacity within buildings with our innovative network designed specifically for neutral host operators.

Visit us at Booth Hall 6 (6C74) to:

- Explore interactive product demos.
- Engage with our passionate team of experts.
- Discuss how our solutions can empower your network .

Schedule a Personal Meeting:

Connect with us on a deeper level by booking a dedicated meeting slot:

Don't miss out!

Join DENGYO Technology at MWC 2024 and unlock the potential of Open RAN. Together, let's build a future of connectedness that's open, affordable, and accessible to all.
